We did not believe that the counties of Boope, Lake, McHenry, Winnebago, Ogie, Carroll, Lee, Whitesdes, Kankake, Kendall, Kane, Henry, DeKallo, Iroquols, Champalgn, Dupage, Henry, Vermilion, McLean, etc., after the exhausting calls that have been made upon them for volunteers, would roll up the majorities which they gave four years ago, much less that they would exceed those figures. But strange as this may appear, it is a trifle compared with the revolution which has taken place in Egypt. While we gave ull the encouragement and sid in our power to Gen. Logan, and the noble band whom he led in the 18th District, we hardly dared to hope that Mr. Knykendall would rewhom he led in the 18th District, we hardly dared to hope that Mr. Kuykendall would receive a majority in any single county in his district. We remembered that Mr. Lincom's votes in all that seetlon, four years ago, did not average a hundred to a county, while the Democratic majority ria absolutely mountain high in Johnson. Williamson. Pope. Massac, Pulsakit, Hardin, Safine, Gaffatin, etc. We were repeatedly assured that Mr. Kuykendall well be elected, but we had heard of our gains in that quarter before, and they had been found elsewhere than in the balled baxes on election day. Mr. Kuykendall is elected nevertheless. We have seen that which we hoped our children might some time see, but which we never expected to behold. We have seens a tible tabled "Regular Democratic," voted down in Egypt. We can now perceive the reason. Logan and Haynes and Knykendall proved to the people that the Democracy of that ticked was begus, that it was a sham, hat it, was disloyal to the country, that it was infinical to the soldiers of the Republic, and that they were infinical to it. So it went town 60th a greet crash. At present the constitution only prohibital Congress from "striking freedom of speech or of the press," but does not empower the Foderal Government to provent freedom of speech and of the press from being prohibited by the States. This power is indeed necessary in order to emable Congress to exercise the power already conferred upon it of "guaranteing to each State a republican form of government." No State can be, or continue Republican without freedom of meach and of the mover already conferred upon it of "guaranteeing to each State a republican form of government." No State can be, or continue Republican without freedom of speech and of the press. Congress cannot therefore secure to each State a republican form of government unless it can first secure to it freedom of speech and of the press, the very pillars and corner stones of true republicantem. The framers of the constitution seem to have feared, and guarded against the abridgment of freedom of speech by the Pederal Government, and the press of the constitution seem to have feared, and guarded against the abridgment of freedom of speech by the States. Events have proved that the stangers to freedom of apoced were from the States and not from the Federal Government. The slave state, or their eligarchy, have since 1800 wholly suppressed, first all advocacy of the Union State of the Constitution to guarantee freedom of speech and of the regists of the Federal Government. Meanwhile the latter was compelled by the absence of any express power in the Constitution to guarantee freedom of speech and of the press, to sit idly by and see itself undermined by lies in the affections of the people, after which armed rebellion followed as the natural sequel. Congress must, therefore, in order to maintain the lithest accounted the constitution to guarantee freedom of speech in all the States.

This should now be the watchword of all parties at the North. Hitherto the South has been united by the bond of slavery. But no one can read Jeff. Davis' last meissage recommending, as a trimming measure, the freeing of only 40,000 blacks, by which he hopes to cut between the rebel fire-eaters who demand that every able bodied slave be put in the ranks and the pro-slavery rebs who scout the whole idea of arming the slaver as a Abolitionism—without seeing that slavery, which has heretolore been the bond of union to them has now become the apple of discord. If the Copperheads are wise they will abandon the issues upon which they have been so overwhelmingly swamped, and will still further aid in dividing the South by presenting to the rebels a united North. Let us toss the apple of discord the inevitable slavery question, over into their lines and keep if there. A vigorous prosecution of the war's doing it.

MEN-OF-WAR.

PERSUIT BY TWO BRAZILIAN The Brazilians Quickly Drop Out of Sight.

From the Beston Advertiser, Nov. 9.
The news which we announced yesterday norming that the arrival of the famous steamer Kearsarge at this port, had brought the intelligence of the capture in Brazilian waters, by the Union gmibosit Wachnett of the no-torious rebel cruiser Florida, sent a thrill of surprise and delight through the compunity.

al congressional and mational elections seemed almost to be forgotten in comparison. One of our reporters paid a risk to the Kearsarge, during the day, and by the kind courtesy of her officers. Faymaster J. A. Smith being specially obliging, was enabled to obtain a detailed occount of the singular affair in the bay of Bahis, compressing all the perticulars which are secessible to the public.

The Confederate from Repuner Florida arrived at Bahis, Bay of San Salyador, Brasil, October 5, having captored and burned the bark Mondamon, from Rho, off Pernaribuco, on the 28th of September. The United States steamer Wachusett, Captain Napoleon Collins, had been lying several days in the port of Sahia, and the Florida first anchored in the offing. The Brazilian Admiral lumediately serf her a message requesting humediately serf her a message requesting humediately serf her a message requesting humediately serf her a message requesting how to come inside, which she did, archoring in the midst. of the Brazilian's deet, and close under the guns of the principal fort, which is located upon an himself in the middle of the hardor.

Certain parties in Bahis, which is a commercial city of considerable importance, with one of the best harbors in the world, being interested in American affairs, bestired themselves to bring about an engagement between the Wachusett and the Florida, firally confident that the result of such an encounter would be snother Lindon victory as complete selves to bring about an engagement between the Wachmett and the Borda, firmly conducted that the result of such an encounter would be another Union retory as complete as that won last summer in the British Channels. On the marring of the 6th of October they carried a challenge to Captain Morris, of the Florida, to move outside the limits of Brazilian jurisdiction and fight the Wachmestt. The rebel commander declined to receive the missive which the Brazilian residents had prepared on account of some informality in its address. During the afternoor of the media of the missive which the Brazilian residents had prepared on account of some informality in its address. During the afternoor of the same day a Hungarian clitten living in Bahis, and sympathishing with our Government in its struggle with the rebellion, waited floor Captain Morris and endeavored to induce him to consent to an action between his ship and the Union gunboat, but without success. Captain Morris, however, stated that if he happened to fail in with the Wachmestt during a cruise he should willingly engage in a contest with her, but that on no account would be consent to leave a safe inabor for the express purpose of having an engagement.
